Education

2009 - 2012 **Master degree in computer science, networks and telecommunications**

[Ecole nationale supérieure des Télécommunications de Bretagne](#)

The Télécom Bretagne branch of the IMT Atlantique apprenticeship programme seeks to train high level engineering graduates who are operational and have a broad spectrum of technical experience, covering IT, networks and telecommunications. It prepares future information, communication and network system architects and engineers, as well as managers for the international market.

2007 - 2009 **Networks and Telecommunications technical degree** [IUT de Colmar](#)

Networks and telecommunications technical degree qualification in 2 years. Centered around networks, with Telecommunications and Programming courses.

2007 **Bacalaureat** [Lycee Bartholdi](#)

High school scientific studies with math option.

Certifications

2011 **TOIEC** [Score 960](#)
